Dear Parents:

Throughout the school year, Victory Christian Academy students will engage in a number of enriching learning experiences and creative endeavors. As a community, we would like to capture those special moments on our school website and in our publications (newsletters, school newspaper, etc.) for parents and students to enjoy.

With this in mind, Victory Christian Academy is asking parents for permission to authorize the school to use student-related images and video of students of their child/children. We thank you kindly for your consideration.
